Dr. Sung-Eun Lee is an Associate Professor at the School of Applied Biosciences, Kyungpook National University (KNU) and is currently serving as a Scientific Organiser for Korean Society of Environmental Biology in Korea. Prof. Lee has served as an Associate Editor for Applied Biological Chemistry (Springer-Nature) and a Subject Editor for Journal of Soils and Sediments (Springer-Nature) Entomological Research (Wiley). Additionally, he has served as a Guest Editor for Environmental Geochemistry and Health. After Prof. Lee acquired his PhD degree at the Department of Agricultural Chemistry, University of Sydney, Australia in 1996, he worked as Postdoctoral Fellows and Research Fellows at the Department of Environmental Sciences, Policy, and Management, University of California at Berkeley (CA, USA), Mycotoxin Reduction Research Unit, Western Regional Research Center, USDA-ARS in Albany (CA, USA), and Department of Molecular Biosciences and Bioengineering, University of Hawaii at Manoa (HI, USA). He was joined to Korea Institute of Toxicology, Daejeon, Korea (KIT) in 2006 as a senior toxicologist and managed a venture company for 5 years since 2007. He has joined to KNU since 2012. Prof. Lee has been involved in the organizing committee of many international conferences including, most recently, Asia Paci-fic Biochar Conference 2016 held in Korea. Prof. Lee's main research is focused on Environmental Toxicology of Biochars on Terrestrial and Aquatic Organisms.
